

## Career Objective

Aspiring Data Scientist seeking an entry-level opportunity to apply skills in Python, SQL, machine learning, and data analysis to solve real-world problems. Eager to contribute to data-driven decision-making while continuously developing technical and analytical skills.

## Education

### Bachelor of Science (B.Sc.) in Computer Science

2024 – Present

SASTRA Deemed to be University

Srinivasa Ramanujan Centre, Kumbakonam

CGPA: 8.5263/10

### Higher Secondary Certificate (HSC)

2024

Little Flower Higher Secondary School, Kumbakonam, State Board

Percentage: 80.33%

### Secondary School Leaving Certificate (SSLC)

2022

Little Flower Higher Secondary School, Kumbakonam, State Board

Percentage: 62%

## Internship Experience

### Website Development Intern

01 Mar 2026 – 30 May 2026

Global Emperor Supply Chain & Logistics (GESCL)

[gescl.com](https://gescl.com)

- Built a product showcase website using Zoho Sites for vegetables, fruits, and spices.
- Developed user-friendly interfaces and supported website optimization and compatibility.
- Collaborated with the supply chain team on agricultural digital transformation initiatives.

### Data Science Intern

21 Aug 2026 – 20 Sep 2026

Thiranex

- Cleaned and preprocessed raw data, visualizing key findings.
- Built and evaluated a supervised machine learning model for prediction.
- Performed exploratory data analysis to identify patterns and relationships.
- Completed a domain-specific data science project and presented findings visually.

## Projects

### Skin Disease Classification and RAG Chatbot

In Progress

Custom CNN, Retrieval-Augmented Generation (RAG)

[GitHub](#)

- Developed a custom convolutional neural network (CNN) to classify skin images across 10 disease categories.
- Integrated retrieval-augmented generation (RAG) to retrieve disease-related information and generate treatment guidance based on the predicted category.

- Currently extending the chatbot with web search and tool integration to support additional information retrieval.

## **Paddy Field Weed Detection — Research Project**

Ongoing

*Faculty-supervised research, SASTRA*

## **Android Heart Disease Prediction App**

2026

*Android, Machine Learning*

- Developed an Android application integrating a machine learning model for heart disease prediction.

### **Technical Skills**

---

**Programming Languages:** C, C++, Python, Java, Kotlin

**AI and Machine Learning:** Machine Learning, Deep Learning, Transfer Learning, Convolutional Neural Networks (CNNs), Retrieval-Augmented Generation (RAG)

**Libraries and Frameworks:** TensorFlow, Keras, scikit-learn, pandas, NumPy

**Development:** Android Application Development, Zoho Sites

### **Soft Skills**

---

- Problem Solving
- Adaptability
- Time Management
- Teamwork

### **Languages**

---

- Tamil
- English

### **Extracurricular Activities**

---

- Co-organizing FOSSFURY 26, a programming MCQ competition through the SFOSS Association at SASTRA SRC, Sep 2026. Collaborated with teammates to develop the competition's web-based quiz platform. [GitHub](#)
- Volunteered through the National Service Scheme (NSS) at a Tamil Nadu government job fair.
- Volunteered through NSS for a two-day cultural event featuring Therukoothu and Kathakali, conducted by the South Zone Cultural Centre at SASTRA's Srinivasa Ramanujan Centre, Kumbakonam.
- Attended a hands-on Agentic AI workshop organized by Mathematica, 2025, completing practical exercises in Model Context Protocol (MCP) and AI-assisted development (vibe coding).

### **Declaration**

---

I hereby declare that the information furnished above is true to the best of my knowledge and belief.

---

**ARIKARAN A**  
Kumbakonam, September 16, 2026
